This is how a Python based Mastermind will look like!

```
Python 3.9.7 (tags/v3.9.7:1016ef3, Aug 30 2021, 20:19:38) [MSC v.1929 64 bit (AMD64)] on win32
Type "help", "copyright", "credits" or "license()" for more information.

Guess any four colours in the list [O, P, G, Y] below !
You can choose the same colour from the list repeatedly !
O = ORANGE | P = PINK | G= GREEN | Y = YELLOW
Guess the first colour: O
Guess the second colour: P
Guess the third colour: G
Guess the fourth colour: Y
correct colour in correct place:  2
correct colour but in wrong place:  1
Guess the first colour: P
Guess the second colour: O
Guess the third colour: Y
Guess the fourth colour: Y
correct colour in correct place:  0
correct colour but in wrong place:  2
Guess the first colour: Y
Guess the second colour: Y
Guess the third colour: Y
Guess the fourth colour: Y
correct colour in correct place:  1
correct colour but in wrong place:  0
Guess the first colour: G
Guess the second colour: G
Guess the third colour: G
Guess the fourth colour: G
correct colour in correct place:  2
correct colour but in wrong place:  0
Guess the first colour: O
Guess the second colour: O
Guess the third colour: O
Guess the fourth colour: O
```

correct colour in correct place: 1
correct colour but in wrong place: 0
Guess the first colour: G
Guess the second colour: G
Guess the third colour: Y
Guess the fourth colour: O
correct colour in correct place: 0
correct colour but in wrong place: 4
Guess the first colour: Y
Guess the second colour: O
Guess the third colour: G
Guess the fourth colour: G
correct colour in correct place: 2
correct colour but in wrong place: 2
Guess the first colour: O
Guess the second colour: Y
Guess the third colour: G
Guess the fourth colour: G
Congrats ! You use 14 times to guess them correctly !
You are now a master mind !
